Patient Assurance Group

This section is about any news or updates about PAG. Please note that this section will not include PAG papers as they will be sent separately by the Governance team at the appropriate time.

Next PAG meeting: 7 November 2018 **has been cancelled** due to no items to provide assurance on.

SAVE THE DATE: We will still be hosting a meeting on **7 November 2018** between 5:30pm – 8pm at WIRA House, Leeds, LS16 6EB. This will be an informal meeting and a great opportunity to talk about the CCG Volunteer programme so far and how we can continue to make it better.

If you haven't already done so, please let your mentor know if you are able to attend.

Previous to the meeting please have a look at our draft [volunteer agreement and handbook](#) and note down any comments you might have. We will use the meeting as an opportunity to shape the document so please bring your notes with you. If you cannot attend the meeting please send your comments to your mentor by the 6th November.

Opportunities

Here are the current opportunities we have for volunteers to get involved in projects. If you are interested in any of the opportunities or would like more information, please contact the relevant person in the engagement team.

Title	Leeds Safeguarding Adults Board (LSAB) – Comms redesign working group
Project Summary	<p>Everyone has the right to live in safety, free from abuse and neglect. The Leeds Safeguarding Adults Board (LSAB) is made up of a range of organisations including the NHS, Police and Leeds Adults Social Care, working with partner agencies across the city to help and protect adults with care and support needs to be safe from abuse and neglect.</p> <p>Their vision is for Leeds to be a safe place for everyone, and they are looking to create a range of materials to raise public awareness about the different ways that adults can be abused and neglected and how people can get advice if they are concerned about themselves or someone else.</p> <p>This is an opportunity for you to come along and get involved. We are looking at recruiting people to a working group over the next six months that will meet regularly (once a month max.) to take this work forward. You may be asked to explain some questions if people are struggling

1. Changes to The Light GP Practice

The NHS Leeds Clinical Commissioning Group (CCG) is re-procuring (paying for) The Light GP service. Part of the re-procurement process is to engage (talk to) registered patients at The Light. This engagement will help us to understand people's experience of using The Light and their needs and preferences for future services. This information will help us develop a service that meets the needs of registered patients. Please note the closing date for this engagement is **11 November 2018**.

2. Shakespeare Walk-in Centre

NHS Leeds Clinical Commissioning Group (CCG) is currently undertaking a review of urgent care services in the city as part of its proposals around establishing urgent treatment centres in the city. As part of its review, the CCG wants to find out more about the experiences of patients who have used Shakespeare Walk-in Centre in Burmantofts. To do this the CCG is undertaking a six week engagement exercise which will also seek people's views about its proposal to move the walk-in centre up the road to St James's Hospital.

A formal 12 week engagement exercise on the wider urgent treatment centre proposals will take place over winter, more details will be provided once available.

Find out more and share your views, as well as encouraging your friends and family members to give their feedback too: www.leedsccg.nhs.uk/get-involved/your-views/your-views-needed-on-the-shakespeare-walk-in-centre/

3. Mental Health – Support Needs of Parents/Carers of Children and Young People Dealing With Mental Health Issues

We would like to get a better understanding of the information and support needs of parents and carers supporting children and young people with mental health issues; find out what parents and carers in general would like should they have concerns about the mental health of their child/young person.

Findings from the survey will be used to help us develop solutions in response to identified needs.
